Nanoman

PRODUCT 99 · INDUSTRIAL CLEANING

Spray. Wait. Wipe. Done.

Nanoman Biocleaner is a bio-based super concentrate that lifts oil, grease, carbon and grime off almost any washable surface, so the cleaning does itself.

Bio-based

Enzyme-free

Lye-free

PFAS-free

Not dangerous goods

1 litre makes up to 1,000 litres

Super concentrate · 10 L and 20 L cans

HOW IT WORKS

Cleaning that does the hard part for you

Most cleaners make you do the work: scrub harder, reach for a stronger solvent, add heat. Biocleaner works chemically. Its bio-based surfactants cut the surface tension of the cleaning water to about a third of plain water's, so the liquid runs underneath oil and grime, lifts it off and holds it until you wipe or rinse it away.

1

Spray

Dilute to suit the job and spray, mop, foam or wash it on.

2

Wait 30 seconds

Give it 30 seconds to 2 minutes while the surfactants lift the soiling.

3

Wipe or rinse

Wipe with a damp cloth or rinse. No neutralising rinse, no solvent smell.

ON INDIAN RAILWAYS COACHES

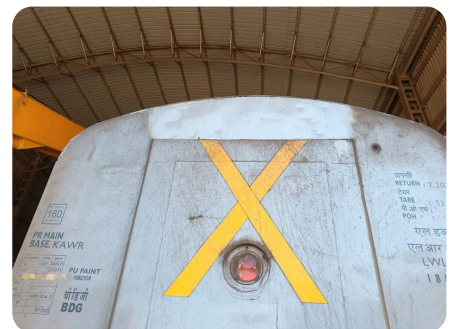

Coach step. Left, as the coach came in; right, the same step after cleaning with Biocleaner.

Underframe panel. Top: as it came in. Bottom: after one clean.

Coach body corner. Grime lifted off, paint intact.

Coach end. The cleaned band across the top.

THE ECONOMICS

₹5,500 a litre. In use, ₹5.50 to ₹110 a litre.

You buy the super concentrate and dilute it twice: first 1 L made up to 10 L with RO or DI water, then with plain water to the strength the job needs. Ratios are working concentrate to finished solution: 1:20 means 1 L of working concentrate made up to 20 L.

What 1 L of super concentrate makes

1:5	50 L		₹110 per litre
		Heavy degreasing, engines, underframes	
1:10	100 L		₹55 per litre
		Heavily soiled floors, vehicles, metal	
1:20	200 L		₹27.50 per litre
		Everyday cleaning, mop water, washrooms	
1:50	500 L		₹11 per litre
		Glass, windows, light cleaning	
1:100	1,000 L		₹5.50 per litre
		Scrubber-dryers, pressure washers	

What a fill costs

₹55 1 L spray bottle for vehicles and machinery, 1:10	₹11 1 L window and glass spray, 1:50	₹275 10 L mop bucket for a factory floor, 1:20	₹550 100 L scrubber-dryer tank, 1:100
--	---	---	--

10 L can 500 L of heavy-duty degreaser, or up to 10,000 L of light-duty cleaner	20 L can 1,000 L of heavy-duty degreaser, or up to 20,000 L of light-duty cleaner	100 L order the minimum order, makes up to 1,00,000 L of ready-to-use cleaner
--	--	--

Prices exclude 18% GST and the water used for dilution. Free delivery across India. Volume pricing on request.

Bio-based, enzyme-free and lye-free

The active surfactant is a bio-based polymer made by fermentation, supported by a betaine surfactant, sodium citrate and soda ash, with a trace of lemon oil. No enzymes, no bacteria, no lye, no solvents, no chlorine and no PFAS.

Works the same every time

A surfactant cleaner, not an enzyme or bacterial one: no waiting, cold or hot water up to 95 °C.

Not dangerous goods

No hazard pictograms, no special storage, normal freight by road, rail, sea or air.

Not flammable

Water-based, with no solvents and no solvent smell.

Keeps working in drains

Emulsified oil stays dispersed in the rinse water instead of setting into fat deposits.

ONE CONCENTRATE REPLACES

Heavy-duty degreaser

1:5 engines, ovens, underframes

Floor cleaner

1:20 mop water and scrubber-dryers

Vehicle shampoo

1:10–1:30 bodies, wheels, interiors

Kitchen cleaner

1:5–1:50 hoods, grills, surfaces

Carpet spotter

1:10 fresh tea, coffee and wine

Glass cleaner

1:50–1:100 windows and glass

Where it is used

Railways and metro depots · bus and truck fleets · workshops and factories · warehouses and logistics · commercial kitchens, hotels and hospitals · fuel stations · ports and ships · farms and dairies · façades and public spaces · fire and smoke restoration · surface preparation before painting or coating.

Good to know

- Always dilute before use. Mix only what you will use within 14 days.
- Avoid eye contact. Test on a hidden area of sensitive surfaces first.
- Store at 5–35 °C, cap on, away from frost. Super concentrate keeps for 24 months.
